

Back to the Future Sustainability in Drug Development

DMD DUTCH
MEDICINES
DAYS

20-21 September 2023
Oss, The Netherlands

The FIGON Dutch Medicines Days bring together professionals who are involved in pharmaceutical sciences in order to exchange the latest scientific results, experiences, and information and to build and strengthen collaboration at regional and international level.

The Dutch Medicines Days is the conference where partners from industry, scientific and professional associations, universities, business and government can present their findings, share new scientific content and strengthen their network.

The programme of the DMD offers inspiring presentations and lectures that give you insights into the future of drug development and health care applications.

Topics and subsessions among others:

Future of Drug Innovation • Sustainable Drug Synthesis • Translational Medicine • Innovations in dose sparing
Computational Drug Discovery • Green Energy and Medicines Synthesis • Receptor Pharmacology •
Pandemic Preparedness • Predictive Models, Organs-on-a-chip • Drug Use • Cradle to Cradle • Patient
Participation throughout the product life cycle • 3Rs in Regulatory Efficiency • Genetherapy • The Next
Generation: start-ups driving drug discovery forward • Career Opportunities in BioPharma
