

**PAEDIATRIC CLINICAL PHARMACOLOGY/CLINICIAN RESEARCHER
CLINICAL ACADEMIC POSITION**

**Department of Paediatrics
Schulich School of Medicine & Dentistry, Western University**

The Department of Paediatrics, Children's Hospital, London Health Science Centre, and Schulich School of Medicine & Dentistry, Western University is seeking a Paediatric Clinical Pharmacologist to join our established Division of Paediatric Clinical Pharmacology as a full-time faculty member. The Department of Paediatrics provides comprehensive acute care, ambulatory and in-patient services for children to a population of 2 million in southwestern Ontario. Children with a full range of care issues are managed in our Paediatric Emergency Department, Paediatric Critical Care Unit, Neonatology Unit and in-patient Clinical Teaching Units. The Department has a strong research environment and is partnered with the Children's Health Institute ([CHRI Website](#)) with broad programs studying children ranging in age from pre-term neonates to adolescents. The Department is very active in undergraduate, postgraduate and continuing medical education. The Department has a Royal College accredited program in Paediatric Clinical Pharmacology. The University of Western Ontario has the largest Division of Clinical Pharmacology in North America as well as the largest Clinical Pharmacology residency in Canada and an active graduate program in Pharmacology and Physiology.

Candidates for this position must have an MD or equivalent degree and must be eligible for licensing in the Province of Ontario. Advanced training and experience in research is preferred. For those applicants looking for a research intensive position, and have an established research profile, we are searching for an endowed GSK Research Chair in conjunction with Schulich School of Medicine & Dentistry in parallel with this post. Interested and qualified candidates should apply to both posts. Subspecialty certification in Paediatric Clinical Pharmacology from the Royal College of Physicians and Surgeons of Canada or equivalent is required. Expertise/experience in Precision Medicine would be a useful skill. The successful candidate will hold a full-time Clinical Academic appointment at the rank of Assistant Professor or Associate Professor, or a Continuing Clinical Academic appointment at the rank of Associate Professor or Professor, depending upon qualifications and experience at the time of appointment. Successful candidates for a research intensive position will have a keen interest and expertise in pharmacology and translational research, the ability to collaborate effectively with a wide range of members of the research and health care team and office staff, and will be expected to lead in team-based research. The successful candidate will be expected to secure and hold external research funding. The successful candidate will also be expected to contribute to teaching, both at the undergraduate and postgraduate level and to supervise graduate trainees.

Western University delivers an academic experience second to none. Western challenges the best and brightest faculty, staff and students to commit to the highest global standards. Our research excellence expands knowledge and drives discovery with real-world application. Western attracts individuals with a broad worldview, seeking to study, influence and lead in the international community. Since 1878, The Western Experience has combined academic excellence with life-long opportunities for intellectual, social and cultural growth in order to better serve our communities.

Children's Hospital is the only tertiary care center between Toronto and Winnipeg, serving a population of approximately 500,000 children. The Paediatric Critical Care is 12 bed tertiary care unit with an annual admission of over 900 patients. In addition, Children's Hospital has 64 general paediatric beds, 46 neonatal beds and a very active emergency department. The Department of Paediatrics in London has over 100 faculty members, 40 trainees, and provides a full array of Paediatric sub-specialty services. The Children's Hospital has a Quality and Safety Committee and has formed partnerships within various international quality improvement initiatives. The department has 5 basic scientists as core members and numerous opportunities exist for clinical, epidemiological, translational, and basic science research.

London has a metropolitan census of 530,000 people with the amenities of a big city but friendliness of a small town. London is located in the heart of the Great Lakes region, 2 hours from both Toronto and Detroit. Western University is a research-intensive institution with a wide range of academic and professional programs (see <http://www.uwo.ca> and www.lecdc.com/why-london to learn more). Western's Recruitment and Retention Office is available to assist in the transition of successful applicants and their families.

Compensation for this position will be commensurate with qualifications and experience, and will be primarily composed of an alternative funding plan and academic salary. The anticipated start date for the position is September 1, 2024, although an alternate start date may be negotiated.

Interested candidates should submit a letter of interest, including curriculum vitae and names and contact information of three references to:

Craig Campbell, MD, FRCPC
Professor and Chair/Physician Executive
Department of Paediatrics
800 Commissioners Road East
London, Ontario, Canada N6A 5W9
Email: craig.campbell@lhsc.on.ca

Applications will be accepted until the position is filled. Review of applications will begin after **April 4, 2024**.

Please ensure that the form http://uwo.ca/facultyrelations/physicians/Application_FullTime_Clinical.pdf is included in your application. The anticipated start date for this position is September 1, 2024, although an alternate start date may be negotiated.

Successful candidates will be required to comply with the policies and protocols of the applicable affiliated institutions.
